PROFESSIONAL SUMMARY

Frontend-focused developer skilled in HTML5, CSS3, JavaScript, and responsive web design with hands-on experience building interactive and user-friendly web applications. Currently learning React.js and improving problem-solving skills through DSA practice. Passionate about creating clean UI, learning modern frontend technologies, and building real-world projects.

TECHNICAL SKILLS

Languages & Web:	Java, Python, MySQL, HTML5, CSS3, JavaScript (ES6+)
Frontend:	Responsive Design, Bootstrap, WordPress, DOM Manipulation, Cross-Browser Compatibility
Currently Learning:	React.js — Hooks, Components, State Management
Tools & Concepts:	Git, GitHub, VS Code, OOP, DBMS, REST API Integration, Client-Side Validation

PROJECTS

	HTML5, CSS3, JavaScript (ES6+), DOM Manipulation	
Responsive Restaurant Website		2023
- Built a fully responsive multi-page restaurant website with mobile-first design and smooth navigation. - Implemented dynamic add-to-cart with real-time price calculation using vanilla JS and DOM manipulation. - Ensured cross-browser compatibility and client-side form validation across multiple device breakpoints.		
	JavaScript, OpenWeatherMap REST API, CSS3, Geolocation API	
Weather Forecast App		2024
- Developed a responsive weather app integrating OpenWeatherMap REST API for real-time 5-day forecast data. - Implemented dynamic city search with live conditions — temperature, humidity, wind speed — and Geolocation API for auto-detecting user location. - Designed adaptive UI with dynamic weather-based backgrounds and complete error handling for invalid inputs.		
	Java, MySQL, JDBC, RBAC	
Legal Case Management System		2023
- Architected a multi-role application with secure Role-Based Access Control (RBAC) supporting 3+ distinct user types. - Built complete case lifecycle management — filing, tracking, scheduling — with full CRUD using JDBC and prepared statements. - Designed normalized SQL schemas with optimized joins and indexing, improving query efficiency by ~40%.
